Percentages

Percentages are very useful for both players and coaches to help them identify what they are doing and to compare things.

Can you analyse the data from a recent Scotland v Ireland match, to help the Scotland coach?

- Time in opponants half
- Time in own half

- 1) What % of time did Scotland spend in their opponants half?
- 2) What % of time did Scotland spend in their own half?
- 3) A game of rugby league lasts for 80 minutes. How many minutes did Scotland spend in their opponants half?
- 4) The Scotland half back passed the ball 46 times out of 70. Can you express this as a %?
- 5) The Scotland goal kicker was successful with 3 kicks out of 5. What was his kicking percentage?
- 6) The top tackler for Scotland made 54 dominant tackles during the game out of 67 tackles. What was his % of dominant tackles?
- 7) Andy Henderson has scored 66% of Scotland's 9 tries. How many tries has Andy scored?
- 8) Scotland have played in two rugby league world cups. The table below shows their record. Can you complete their % of wins

	Played	Won	Drew	Lost	% Win
Scotland	6	1	0	5
